

2019 Greater Los Angeles Homeless Count - Youth Count Data Summary

Service Planning Area 8 - South Bay¹

The Youth Count estimates the number of transition age youth, unaccompanied minors, and children in young families throughout the Los Angeles Continuum of Care (LA CoC) who are unsheltered. Youth experiencing homelessness are often a hidden population not easily identified during the general unsheltered homeless count. The dedicated Youth Count is an important effort to ensure young people are represented as accurately as possible. It is important to note that these estimates only reflect a "snapshot" of the number of youth experiencing homelessness on a single night in January.

Population	Sheltered	Unsheltered	Total	Prevalence of Youth Pop. (%)	Percent Change 2018 - 2019	Significant Difference
All Persons						
All Persons	69	71	140	100%	-3%
