

COUNTY OF LOS ANGELES - DEPARTMENT OF MENTAL HEALTH

MENTAL HEALTH SERVICES ACT INFORMATION FISCAL YEAR 2019-2020

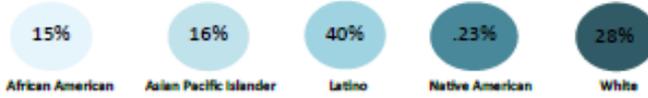

The County of Los Angeles is organized into eight (8) Service Areas (SAs), each with its own characteristics and diverse ethnic make-up. Services within the Los Angeles County - Department of Mental Health (LAC-DMH) are organized on a geographic basis to facilitate greater ease of access. However, clients are free to request services in any geographic area within the system, and may secure referrals to any mental health program, whether directly-operated or contracted with the Local Mental Health Plan (LMHP). The population of LA County is 10,192,376, 48.4% Latino, 28.3% White, 8.5% African American, 14.4% Asian, 0.2% Pacific Islander and 0.2% American Indian.

Mental Health Services Act (MHSA) refers to Proposition 63 which was passed in November 2004 and became state law on January 1, 2005. The Act is funded by a 1 percent tax on personal income above \$1 million dollars to expand mental health services and programs serving all ages.

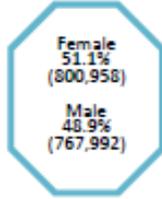

Service Area 8 - South Bay

The population of SA 8 is 1,550,198. It has a household income slightly higher than the county average, and the number of individuals who graduate from college is slightly higher than the county average.

Community Services and Supports

Community Services and Supports (CSS) refers to “System of Care Services” as required by the MHA in WIC Sections 5813.5 and 5878.1-3. CSS serves clients and their families who have the most severe and persistent mental illnesses or serious emotional disturbances, including those who are at risk of homelessness, jail, or being put or kept in other institutions because of their mental illness, focused on serving the unserved and underserved. The plan provides help to ethnic and racial communities who have difficulty getting the help they need for themselves or their families when they have serious mental health issues.

Service Area VIII FSP Capacity as of 9/17/2018

AOT	300	262	81.9%
IMHT	300	297	99%

Clients can be seen in more than one age group in a year.

Prevention and Early Intervention

The Los Angeles County Prevention and Early Intervention (PEI) Plan focuses on prevention and early intervention services, education, support, and outreach to help inform and identify individuals and their families who may be affected by some level of mental health issue. Providing mental health education, outreach and early identification (prior to diagnosis) can mitigate costly negative long-term outcomes for mental health consumers and their families.
